Dear all,

A repository for all the working documents was created on Dropbox.

The Local PIs will have the credentials necessary to modify, add and remove items. All the other members of TEQ will have credentials to read all the items in the repository. If the Local PIs want to extend to other members of TEQ the credentials for modifying, adding or removing items, please let us know.

An email from Dropbox will follow with the link to the Dropbox repository.

Kind regards,
Matteo Carlesso

Matteo Carlesso
PostDoc in Theoretical Physics
University of Trieste
Strada Costiera, 11
34151 Trieste Italy
